

16L Deluxe Multi Sprayer Cordless Powered Knapsack

Reference: SHP103

£145.20

16L Deluxe Multi Sprayer Cordless Powered Knapsack This lightweight, versatile sprayer offers the convenience of a go anywhere rechargeable knapsack sprayer without the need for constant pumping. Simply fill the tank and switch it on. The Multi Sprayer also comes with a unique detachable wheeled trailer with a telescopic pulling handle, ideal if you're unable to or prefer not to carry the weight of a sprayer on your back. Extremely well balanced and easy to wheel around the garden. Supplied with a strong, padded shoulder harness and an ergonomic tank design, it's designed to match the contours of the body to make it comfortable to wear. To reduce fatigue from constant spraying, the trigger also features a locking function to make spraying effortless and easy. Use the control knob to adjust the pump pressure as desired and switch between one of the four nozzles provided for different spraying patterns. More information The Deluxe Multi Sprayer is a dual function, powered sprayer. It can be used either in wheeled mode, as shown here, or in backpack/knapsack mode. The unit has a rechargeable battery built in. Simply fill the tank up and switch on, and you are ready to spray with no effort required! Pull or push the wheeled trolley and spray at the same time. The unit is easily removed from the wheels without tools and comes complete with the straps required to wear the sprayer as a backpack. No pumping required, the battery will provide plenty of power for many 100's of litres of water on a single charge. The fantastic new Cordless Electric Knapsack sprayer with wheeled trailer. This lightweight versatile Sprayer offers the convenience of a go anywhere Knapsack sprayer without the need for constant pumping. Supplied with strong padded shoulder harness and ergonomic tank engineered to match the body's contours making it comfortable to wear for long periods of spraying. The trigger has a locking function for constant spraying to reduce hand fatigue. Simple easy control of pump pressure can be set to your desired requirements by a rotary knob, High settings are great for a dense spray to cover large areas while low pressures are ideal to obtain a light mist for delicate work. The Sprayer is supplied with an

automatic battery charger and fitted with a Battery volt meter and Battery low warning alarm. Main features include Rechargeable The Sherpa Sprayer has a built-in rechargeable battery and is supplied with an automatic battery charger. The sprayer has an on board volt meter to display how much power is left in the machine and features an audible low battery warning alarm. Inlet Strainer To help prevent foreign matter entering the tank, a removable strainer is included in the neck to capture any solid materials. This helps keep the sprayer working at its optimum and prolongs the working life of the pump. Lockable Trigger To reduce fatigue from holding the trigger over longer periods of time, the trigger can be engaged to hold the trigger open and keep the sprayer operational until deactivated. Pressure Control Adjust the spraying pressure easily with the variable control knob as desired making it ideal for spraying in different environments. Wheeled Trailer We also include a unique detectable wheeled trailer with telescopic towing handle, this is ideal if you unable or prefer not to carry the weight of a sprayer on you back, its extremely well balanced and easy to wheel around you garden. The trailer has a storage compartment to neatly store the shoulder straps and spare nozzles.
